EAFP MEMBER and NON-MEMBER

- Access to all scientific activities
- Welcome reception
- Coffee breaks, lunches
- Gala dinner
- Participation Certificate (digital format) sent by e-mail the following week.

STUDENT

- Access to all scientific activities
- Coffee breaks, lunches
- Participation certificate (digital format) sent by e-mail the following week.

STUDENT+

- Everything that is included in STUDENT

- Welcome reception, Gala dinner

ACCOMPANYING PERSON

- Welcome reception, Gala dinner

### ABSTRACTS

Opening of abstract submission: January 19th, 2026

Deadline for abstract submission: February 19th, 2026

Notification of acceptance: March 19th, 2026

## TRANSPORTATION TO TARTU

### FROM TALLINN, ESTONIA (LENNART MERI AIRPORT)

BY BUS

We recommend using Lux Express buses that go directly from Tallinn Airport to Tartu Bus Station. The bus stop is located at the northern exit of the airport. Lux Express buses go every 30 or 60 minutes, depending on time of day. Travel time 2.5 hours. Due to concurrent events it is strongly recommended to prebook the tickets via their website: <https://luxexpress.eu/en/>

BY TRAIN

The train to Tartu leaves from Tallinn Baltic Station. To get there, one can opt for a tram (number 2) that leaves from near the northern exit of the airport (travel time 45 minutes), a bus (number 2) that leaves from a bus stop in front of the airport parking facility (travel time 25 minutes), or a taxi that can be hired from the front of the airport near the main exit. Tram and bus tickets can be bought via a touchless bank card transaction at the front entrance of the vehicle.

The train timetables and tickets are available on their website: <https://elron.ee/en/>

BY CAR

Sunnycars and Hertz car rental service are located in Tallinn Airport. Sunnycars can be booked via our agent during registration to the conference.

\* A transfer bus can be arranged if enough interest is shown during registrations

### FROM RIGA, LATVIA (RIGA AIRPORT)

BY BUS

We recommend using Lux Express buses that go from Riga Bus Station to Tartu Coach Station. To get there, you can catch a bus (number 22) from Lidosta "Rīga" stop that is located at the airport, and ride to the Autoosta (Central Bus Station, Central Railway Station) stop. Tickets can be bought from the driver via a touchless bank card transaction. Alternatively, you can opt for a taxi. Lux Express Riga to Tartu travel time is about 4 hours, but please ensure there are buses that suit your plane arrival time. It is also strongly recommended to prebook the tickets via their website: <https://luxexpress.eu/en/>

BY CAR

Many car rental services are available at Riga Airport.

Deluxe Single EUR 160  
Deluxe Twin EUR 175  
Suite EUR 245

Above prices only apply if booked through our agent during registration to the conference.  
All prices are per night/hold including breakfast.

## TARTU - A Historic Home of Pharmacy and Knowledge

Tartu, or Dorpat, as it was known from the 13th century until the end of the 19th century, is home to Estonia's oldest and most prestigious university – Tartu Ülikool, or University of Tartu.

Tartu, often called the intellectual heart of Estonia, is a city where science, medicine, and culture have been deeply intertwined for centuries. At its core stands the University of Tartu, founded in 1632 and long regarded as one of Northern Europe's most distinguished centers of learning. For pharmacists, Tartu holds a special significance: it is here that pharmaceutical education in Estonia first took root and flourished. The University of Tartu's Faculty of Medicine, established in the early 19th century, quickly became a hub for medical and pharmaceutical research.

It was in these lecture halls and laboratories that generations of pharmacists received training, guided by leading European scientists of their time. Today's Institute of Pharmacy at the University of Tartu is the leading center for pharmaceutical education and research in Estonia. With a strong focus on drug development, clinical pharmacy, pharmacognosy, and pharmaceutical technology, the faculty combines cutting-edge science with practical training to prepare the next generation of pharmacists and researchers. Its close collaboration with hospitals, community pharmacies, and the pharmaceutical industry ensures that teaching and research address real-world health challenges, from patient-centered care to innovative therapeutics. Tartu's pharmacy tradition is also embodied in the city's historic Town Hall Pharmacy, which has served patients since the 18th century and remains one of the oldest continuously operating pharmacies in Estonia. Today, Tartu continues to nurture innovation in pharmacy and the life sciences. This blend of history and modernity makes Tartu not only a cultural treasure but also an inspiring setting for those dedicated to advancing health and pharmacy. As participants gather here, they do so in a city that has been shaping the field for generations—where the past, present, and future of pharmacy meet.
